# Product Size Chart for WooCommerce - Documentation

Display customizable size charts in multiple units (inches, centimeters, etc.) on your WooCommerce product pages.

## Installation and Activation

1. Download the .zip file for Product Size Chart for WooCommerce.

2. Go to: WordPress Admin > Plugins > Add New to upload the file you downloaded with Choose File

3. Now, Install and Activate the extension.

More information at: Install and Activate Plugins/Extensions.

# Adding a New Size Chart

To access the Product Size Chart for WooCommerce plugin, go to Products and click on Size

#### Charts

Here, you will find the following configuration.

- 1. Enable Size Chart: Check to Enable/Disable Size Chart
- 2. Priority: Set the size chart priority
- 3. Button Title: Enter title for button to display
- 4. **Icon:** Select icon to display on front-end (the size chart will be display on a popup when customer click on the icon)
- 5. **Featured Image Position:** Choose image position on the size chart (please upload the Featured Image in the right side)
- 6. **Size Chart Content:** Write content that will be displayed on the top of size charts (leave it empty if you don't want to display content)
- 7. **Size Chart:** Enter button title of size chart (this will be displayed as a tab if you add another size unit, **for example Inches**).
- 8. Add More Rows
- 9. Add More Columns
- 10. Size Chart in Other Unit: Enable this if you want to display sizes in other unit as well.

11. Enter the title of other unit that will be displayed as a tab in popup and customers will switch to (**for example Centimeters**). Just like the above unit, you can add more rows and columns in this unit as well.

| Product Size Chart        |  |  |  | ~ ~ *         |

|                           | + -  | + -  | + -  |               |
|                           | Size   | Chest  | Waist                                      | + -           |
|                           | S  | 84-89  | 69-74                                      | + -           |
|                           | Μ  | 90-95  | 75-80                                      |               |
|                           | L  | 96-101   | 81-86                                      | + -           |
|                           | XL   | 102-107  | 87-92                                      | + -           |
|                           | XXL  | 107-112  | 92-97                                      | + -           |
|                           | Import Export Down   | load Sample CSV  |  |               |

Now Scroll down and you will find the following settings:

- 1. Display size chart to Specific Customers.
- 2. Display size chart to **Specific Customers Roles** (for example, wholesaler & not logged-in users).
- 3. Display size chart to **Specific Countries.**
- 4. Choose Specific **Products** to display size chart on.
- 5. Choose Specific **Categories** to display size chart on.
- 6. Choose Specific **Product Tags** to display size chart on.

| User roles & Customers |   |   | ~ ~ * |
|------------------------|---|---|-------|
| Registered Customers   |   | Search Customers                        |       |
| Customer Roles         | 2 | Select Customer Roles                   |       |
| Select Countries       | 3 | Select Country                          |       |
|                        |   | Leave empty to apply for all countries. |       |
| Products & Categories  |   |   | ~ ~ * |
| Select Products        | 4 | Search Products                         |       |
| Select Categories      | 5 | Search Categories                       |       |
| Select Tags            | 6 | Search Tags                             |       |

## **General Settings**

To access **General Settings**, Navigate to **WooCommerce** > **Settings** > and then click on **Size Chart** and then **General**.

Here, you will find the following settings

- 1. Display Size Chart as:
  - a. Tab: This will create a separate tab for size chart
  - b. **Button**: Size chart will be displayed in customized popup when customer click on button.
- 2. Display Size Chart Button: Choose the position of size chart button.
- 3. **Popup Position:** Choose size chart popup position.
- 4. Popup Animation: Choose the size chart popup animation.

## **Customization:**

To customize the size chart popup, navigate to **WooCommerce** > **Settings** > **Size Chart** > and then Click on **Customization**.

Here, you will find the following settings.

- 1. Size chart button text color: Customize the text color of your size chart button.
- 2. **Size chart button background color:** Set the background color of your size chart button.
- 3. Content background color: Control the background color of the size chart content area.
- 4. **Table text color:** Choose the color of the text within the size chart table.
- 5. **Table text size:** Adjust the font size of the text in the size chart table.
- 6. **Table border color:** Set the color of the borders around the size chart table.

- 7. **Header background color:** Customize the background color of the size chart table header.
- 8. Header text color: Choose the text color for the size chart table header.
- 9. Header text size: Adjust the font size of the text in the size chart table header.
- 10. Even rows background color: Set the background color for even rows in the table.
- 11. Even rows text color: Choose the text color for even rows in the table.
- 12. Odd rows background color: Set the background color for odd rows in the table.
- 13. Odd rows text color: Choose the text color for odd rows in the table.
- 14. **First size table button background color:** Customize the background color of the first unit button.
- 15. First size table button text color: Customize the text color of the first unit button.
- 16. **Second size table button background color:** Customize the background color of the second unit button.
- 17. Second size table button text color: Customize the text color of the second unit button.
- 18. Custom CSS: Add custom CSS to further style your size chart.
