Thumbnail Settings

Head to WooCommerce > Gallery Slider > Click Thumbnails Tab

This section controls the appearance and behavior of thumbnail images used for gallery navigation on single product pages.

- 1. **Show Thumbnails** Enable or disable thumbnail navigation below or beside the main product image.
- 2. Items Per View Define how many thumbnails are visible at once in the navigation slider.
- 3. Thumbnail Size Set the width and height (in pixels) for each thumbnail.
- 4. Thumbnail Border Enable this option to apply a border around each thumbnail image.
- 5. Thumbnail Border Color Choose the color of the border applied to inactive thumbnails.
- 6. **Thumbnail Active Border Color** Set the border color for the currently active (selected) thumbnail image.

Arrows Settings

Browse to WooCommerce > Gallery Slider and Click Arrows Tab

Here you can customize the navigation arrows used in both the main gallery slider and the thumbnail slider.

- 1. Enable Arrows Show or hide navigation arrows on the main product gallery slider.
- 2. **Enable Arrows on Thumbnails** Display arrows for navigating the thumbnail slider (useful when thumbnails exceed the visible area).
- 3. Arrow Style Select the visual style of the arrows.
 - Circular
 - Square
- 4. Arrow Color Set the default color of the navigation arrows.
- 5. Arrow Hover Color Define the arrow color when hovered over by the user.
- 6. Arrow Background Color Set the background color behind the navigation arrows.

- 7. Arrow Background Hover Color Set the background color of the arrows when hovered.
- 8. Arrow Size Specify the size of the arrows in pixels.

	General	Thumbnails	Arrows	Bullets	Lightbox	Zoom	Social sharing

Lightbox Settings

Navigate to WooCommerce > Gallery Slider > Click Lightbox Tab

Personalize the lightbox functionality for product images. When enabled, clicking a product image opens it in a full-screen overlay for better viewing.

- 1. Enable Lightbox Enable or disable the lightbox feature for product gallery images.
- 2. Lightbox Icon Position Set the position of the lightbox icon overlay on product images.
 - Top Right

- Top Left
- Bottom Right
- Bottom Left
- 3. Lightbox Background Color Choose the background color of the lightbox overlay that appears behind the image.
- 4. Lightbox Icon Color Set the default color of the lightbox icon.
- 5. Lightbox Icon Hover Color Define the color of the lightbox icon when hovered over.

Zoom Settings

Browse to WooCommerce > Gallery Slider > Click Zoom Tab

This section allows you to enable and fine-tune the zoom functionality on product images, enhancing user interaction and product detail visibility.

- 1. Enable Zoom Toggle to enable or disable the zoom effect on product images.
- 2. **Zoom Type** Choose the style of zoom interaction.
 - Lens
 - Window
 - Inner
- 3. **Zoom Level** Set the magnification level for the zoom, expressed as a percentage.
- 4. **Zoom Box Width** Define the width of the zoom preview box (in pixels).
- 5. Zoom Box Height Define the height of the zoom preview box (in pixels).
- 6. Zoom Box Border Radius Set the border radius for the zoom box corners (in pixels).
- 7. Zoom Box Border Width Set the thickness of the zoom box border (in pixels).

	General Thumbnails	Arrows Bullets Lightbox Zoom Social sharing
	Enable Zoom	 Enable zoom effect on product images.
2	Zoom Type	Lens V Type of zoom interaction.
3	Zoom Level	250 % Zoom magnification level in percentage.
4	Zoom Box Width	300 px Width of the zoom box in pixels.
5	Zoom Box Height	300 px Height of the zoom box in pixels.
6	Zoom Box Border Radius	10 px Border radius of the zoom box in pixels.
7	Zoom Box Border Width	2 px Border width of the zoom box in pixels.

- 8. Zoom Lens Size Specify the size of the lens area (in pixels) used in lens-style zoom.
- 9. Zoom Lens Border Color Set the border color of the zoom lens.
- 10. Zoom Lens Shape Choose the shape of the lens for lens-style zoom.
 - Square
 - Round
- 11. **Disable Zoom on Mobile** Disable the zoom feature for users on mobile devices, improving usability on touch screens.

Social Sharing Settings

Access WooCommerce > Gallery Slider > Click Social Sharing Tab

Here you can enable and configure social media sharing buttons for product pages, making it easy for customers to share products with their networks.

- 1. Enable Social Sharing Toggle to enable or disable social sharing buttons on product pages.
- 2. **Share Platforms** Select which social media platforms you want to display for product sharing. Options are Facebook, Twitter, Pinterest, Instagram, WhatsApp
